The image shows two brand logos side-by-side. On the left is the Carnipure logo, which consists of the word "Carnipure" in a white, sans-serif font inside a dark blue rounded rectangular button. A white circular swoosh graphic is positioned to the right of the text. To the right of the Carnipure logo is the Wheypro logo, which features the word "Wheypro" in a stylized, bold font where the letters "W", "h", "e", "y", and "p" are colored in shades of yellow, orange, and red, while "ro" is in blue.

Wet ingredients: Emulsifying agents and emulsified dressings. These include shortening, oil, butter, shortening-oil mixtures, lard, and margarine. Dry ingredients: Starches, flour, sugar, salt, baking powder, leavening agents, and seasonings. The dry ingredients are combined in a mixing bowl. The wet ingredients are added to the dry ingredients and mixed until a smooth batter is formed. The batter is then poured into a greased and floured baking pan. The cake is baked in a preheated oven until it is done. The cake is then cooled and served.
